Wick Chafing Fuel

In homage to the name behind the first canned heat fuel in America, the complete portfolio of chafing fuel products from SternoCandleLamp will proudly display the Sterno® brand logo.

Our incomparable Wick Chafing Fuel product line features the most popular, inventive and innovative wick technology available in foodservice today — delivering the highest wick heat output, consistent burn times and best overall value.

In 1914, the maker of fine chafing dishes introduced Sterno® Canned Heat — advancing the quality of entertaining forever. And year after year, can after can Sterno has earned your trust with innovative products that help ensure the food you serve is as hot, safe and delicious as when it came out of the kitchen.

Wick Chafing Fuels

10112 Safe Heat®
• Burns 2 hours
• Patented PowerPad® provides the broadest, hottest flame
• High heat output

10114 Safe Heat
• Burns 4 hours
• Patented PowerPad provides the broadest, hottest flame
• High heat output

10115 Hot Spot™
• Burns 4 hours
• Flat wick design delivers Heat Surge for a strong, hot flame
• High heat output

10116 Safe Heat
• Burns 6 hours
• Patented PowerPad provides the broadest, hottest flame
• High heat output
• Twist cap allows for easy resealing, storage and reuse

10104 Handy Wick®
• Burns 2 hours
• Twist cap allows for easy resealing, storage and reuse

10106 Handy Wick
• Burns 4 hours
• Twist cap allows for easy resealing, storage and reuse

10108 Handy Wick
• Burns 5 hours
• Twist cap allows for easy resealing, storage and reuse

10110 Handy Wick
• Burns 6 hours
• Twist cap allows for easy resealing, storage and reuse

10100 Stem Wick
• Burns 2 hours
• Stem wick provides a narrow width, steady flame

10102 Stem Wick
• Burns 6 hours
• Stem wick provides a narrow width, steady flame

Patented PowerPad®
Combines the safety and efficiency of wick fuel with the high heating power of gel.

Wide-Pad Technology – produces a broader, hotter flame

Spill-Safe Design – available in a twist cap or pop top

Gel Chafing Fuel

The preferred Gel Chafing Fuel portfolio from SernoCandleLamp features Serno Green Ethanol – the first GRA-endorsed Gel Chafing Fuel in America: a groundbreaking plant-based bio fuel that promotes a safer, cleaner and healthier environment.

Lamps

Whether a fine restaurant or casual eatery, neighborhood bar or nightclub, attractive lamps do more than cast light. They help enhance your décor, reflect your personality, enrich your cuisine — and most importantly, make your guests feel warm and welcome.

Effective table lighting is an affordable way to turn a delicious meal into a memorable experience.

Soft Light[®] Clear Liquid Candles

Soft Light is made from highly refined clear liquid paraffin that is safe and approved for use in foodservice operations. Our Soft Light Liquid Candles provide real flame ambience without the messy drippings and time-consuming cleanup associated with standard wax candles. Simply recycle empty fuel cells and replace with new ones – no other maintenance is required.

Traditional Wax Candles

Nothing makes a more welcoming first impression or marks a special occasion like the natural glow of wax candles. They are reported to improve moods, create an aura of intimacy and romance, soften distractions — even lower noise levels. Our premium-quality line of Traditional Wax Candles features a variety of popular styles and sizes.

Catering Equipment

Our exclusive line of *WindGuard™* Chafing Dish Frames are sturdy, stylish and stackable! They look great indoors, but perform like pros at outdoor events. The full panel design keeps food hotter, uses 10% less chafing fuel, and keeps the flame from blowing out in the windiest of conditions. What's more, our Fold-Away model stores flat to save even more space!

MyLamp Pro

MyLamp Pro mobile app from SternoCandleLamp allows foodservice professionals to preview lamps prior to making the purchase. You simply start by taking a picture with your iPhone or iPad of an actual table setting in your establishment. After taking the picture, the MyLamp Pro app allows you to place a lamp of your choice on the photographed table setting. The end result is a picture of your table setting with a table lamp on it. You are able to preview over 200 different lamp styles to see how they will look in your establishment.

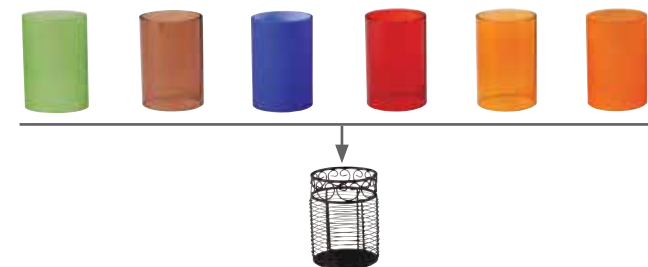

How Our Lamp Model Numbers Work

<p>Complete – 80216*</p> 	<p>Glass – 85292</p>  <p>Base – 85252</p> 	<p>Shade – 85436</p>  <p>Glass – 85272</p>  <p>Base – 85170</p> 
<p>One Piece Lamps 80216*</p>	<p>Two Piece Lamps 85292-85252</p>	<p>Three Piece Lamps 85436-85272-85170</p>

*Recommended for areas with high guest or staff traffic – won't break or tip over easily.

A NOTE ABOUT INTERCHANGEABILITY – Many of our lamps are made up of common parts with different finishes or colors. This enables you to create your own signature look. For example, in the two piece lamp above the red glass (85292) is available in frost (85286) as well as orange (85288). These will fit any base that can accommodate the same globe glass size. The same criteria holds true with shades and bases, allowing you to create your own unique design to complement your décor.
